

The matter of purchasing a power winch to raise and lower the tower top section was brought up, and Dick reported that he didn't feel it was really necessary since he had lowered the tower only once this year due to storms. It was also commented that such a winch would be quite costly. Matter dropped.

Dick stated that some time ago he had applied for renewal of the coordination of our repeater, and that he has not had a reply in some five months. He is not sure what the status of the committee and possible action is.

He also reported that we have been experiencing some interference on our repeater frequency, and he is quite certain, after testing and checking, that it is the picture carrier from some TV station. He is continuing to checking into it.

New Business:

It was VOTED to give Dick Patten, W1NBL, Trustee and custodian of our repeater, a Life Membership in the LRRR as an expression of our appreciation to him for his care for, supplying power to, and housing the repeater.
