

LAKES REGION REPEATER ASSOCIATION

Minutes of the Officers, Financial Committee and Technical Committee, held on Saturday, September 20th, 1986, 0830 hours.

A breakfast meeting was held at Chase's Restaurant in Meredith. With the exception of our Secretary, all members of the above committees were present. A brief summary of the results of the meeting follows:

- 1) Sam, WLEMN, has requested that the repeater be removed from his site due to interference with other repeaters. It was agreed to move the repeater ASAP.
- 2) Andy, KLNYS, as a one-man site survey team, agreed to followup on a site on Parade Road, Laconia. It appears from tests at this location that it is a very desirable location. We have to find out who controls the site. Since there are several other antennae there, it is believed it may belong to the City of Laconia.
- ✓ 3) Dick, WLNBL, volunteered to have the repeater set up at his QTH for as long as we desire. His offer was gratefully accepted!
- 4) A short discussion on our financial condition and the need for additional funds was held. The consensus was that no assessment or dues increase would be levied at this time.
- 5) Dave, WIFYX, appointed Sy, N1ACB, as an additional member of the Technical Committee. The meeting was adjourned at 1030 hours. Dave told those present that he would call another meeting in 4 to 6 weeks.
- 6) Following the meeting, Dave, Dick, Peter and Howard removed all equipment from Sam's house and moved it over to Dick's, using Dick's 2-meter beam temporarily. The repeater was back on the air by 1500 hours. The Shakespeare vertical antenna will be installed in a few days.

73's,

Dave, WIFYX
(in the absence of Hu, WLLIM)
