

LAKES REGION REPEATER ASSOCIATION

November, 1986

To All Members:

The repeater is now completely installed at its new home. It is located on Long Island in Lake Winnepesaukee, at the QTH of Dick, WLNBL. The antenna sits on the top of a fifty-foot crank-up tower so that the effective height, including the pipe mast, is more than sixty feet above ground. Initial reports indicate that it is a greatly improved repeater than we experienced when it was on the pipe mast only. The added height at Dick's location has made quite a difference.

It is time to remind you that your dues for the 1987 year are now due and payable. The minutes of the meetings, enclosed with this note, explain our financial situation, and our hopes for the future. The dues remain the same as previously, \$10.00 per year. Your prompt remittance will assist us tremendously in meeting our obligations, and accomplish some of the goals still ahead for us.

Please send your checks to:

Howard Gilbert, Treasurer

A Special Note to our supportive non-member Friends:

If you wish to make a contribution to the Repeater Association, it will be most gratefully received. We welcome everyone to become members of the Association, and a check for \$10.00 will do the job. Our Annual Meeting is held the latter part of August for the convenience of those who do not winter in New Hampshire or close by. We are sending the minutes of our Annual Meeting and the Executive Committee to you so that you will get a clear picture of what is going on.

Join us, and the fun of the Lakes Region Repeater, and we look forward to seeing you on the air - on 147.03/63!

The Executive Committee
Dave Walsh, WLFYX, Pres.
