Subject: lrra-repeater! Your LRRR (Test) Web Site
Date: Saturday, November 21, 1998 8:35 AM

Your LRRR test site is up and running and needs your feedback/criticism.

The site will be effective for you (maintaining data that's easily misplaced or forgotten), and a help to visitors only if we water and weed it.

Please check out the site at its current location:

www.worldpath.net/~dikbrook

Once you're there be sure to save it as a "favorite" or "bookmark". It's a mouthful to type out all the time.

Please send your corrections/comments to

dikbrook@worldpath.net

(-< This address is also available on the Web

site.)

Or, if you feel the topic should be discussed more widely, post your comments right here on the lrra-repeater mailing list. Just "reply" to any message posted on the list.

To initiate a message to the mailing list, plug this address into your address book:

lrra-repeater@egroups.com

Then you can address the entire group of 45 LRRR members who have email addresses.

73,
Dick Brook KJ10
Secretary LRRR
