

April 15, 1986

To All Members of the Lakes Region Repeater Association

Many have expressed concern over the delay in sending out this notice. I have waited until a suitable site had been located for the repeater. However, the site question is still not fully resolved.

The repeater is presently located in Wolfeboro at WLEMNS' qth. It presently does not cover the Laconia, Plymouth areas either in mobile operation or in some instances in fixed operation. The major problem within our group is a suitable location for the repeater. Such a site must cover the Lakes Region especially mobile operation. Any suggestions would be welcomed by the tech committee along with a willingness to help.

A new antenna has been ordered and will be tried at Sams' qth. It is hoped that this will improve the situation. If it does not, then a new site will have to be found.

It is now time for payment of dues for 1986.. I have enclosed your memberships cards in order to reduce postage and paper work.

The dates have been set for the spring meeting and the annual meeting. Both will be held at Pheasant Ridge with a buffet catered by Contigiani. Cost is \$9.00 per person.

Spring meeting Saturday May 24, with xyl's. Buffet at 1:pm
Annual meeting Saturday Aug. 23. Buffet at 1:pm

At the last annual meeting WLFYX (Dave) was elected vice-president. Also, discussion was held concerning the election of an executive board for the association. An election was held but later research indicated that our by-laws do not provide for an executive board.

Finally, please send your payment for dues and the spring meeting to me as soon as possible at the following address.
