

L.R.P.A.
Proposed move to new location.
Alternate Sites

1. Copple Crown Mt: - Owned by.
Reasonably accessible, power-possibility - the slope owned by development group might be negotiated.
Access not available.
2. Prospect Hill: Privately owned. Homes being built at height of land. Not a good site for complete coverage - too near Mt. Shaw - power available.
Lease or purchase, could not negotiate.
3. Red Hill:
Could be ideal - no means of access, no power.
4. Mt. Belknap.
Site of CATV Ant. for Laconia area. Site of line observation tower - site not negotiable. TV people object to any operation on adjacent frequencies.
5. Mt. Jewstock:
Inaccessible - no power availability.
6. Mt. Roove:
Alpine slide - could be used. - power available access good. - power termination subject to lightning strokes. Has been struck several times since installation - also subject to vandalism.
7. Brickyard Mt:
100ft tower available - power available - access good. Could negotiate with owner.
Site may have good possibilities.

8, Track Hill;

Access possible, but difficult in Winter
Power possible - 1600 ft. Would be an improvement
over Present site. but power to site expensive
Complete Coverage questionable - owners in P.D.
